

# AMORIM TIMES

AMORIM CORK COMPOSITES — JULY 2017

## BREWER'S DEW DECK 2017—RECAP

Although the Brewer's lost 6-3 to the Cardinals, the weather did cooperate allowing everyone to tailgate both in the courtyard here at Amorim before the game as well as the parking lot at Miller Park.

In total, we had 74 participants attend the game comprised of employees, spouses, children, significant others and retirees. With 28 children present, this was truly a family affair.

We're looking forward to an even

better 2018!

## DID YOU NOTICE OUR VISITORS?

You might have seen some visitors in our plant the last of May; it was our Business Partners from China. AmoSealtex is a Joint venture between Seal-tex and Amorim, this company is a leader in the Chinese market in the

fabrication of gaskets. They are the 3<sup>rd</sup> largest customer in the world for Inter-face materials. The Chinese Team was very impressed by our facility and thankful for the opportunity to be our guests.

## OUR PRODUCTS USED LOCALLY

Made in Wisconsin for Wisconsin, one of the top High Schools in the state has trusted it's weight room flooring to be made by the Team here in Trevor. Homestead High School has selected our layered system of 404SU as a based layer and our 10% color and black as their top flooring. The total 3/4" flooring system eliminates tradition platforms for lifting.

## THINGS TO REMEMBER

As the weather heats up, remember to stay hydrated while you work. There are plenty of water coolers around the plant.

Also, we tend to prop many doors open to the plant when it is warm out. When the wind picks up and it starts to rain, pay attention to water blowing into the plant. We don't want stock or finished product getting wet.

And, if you are the last person left in a work area, please close outside doors. Many times at the end of the day only a couple people are left in the building and this could become a safety issue if someone wanders in. Thank you.

## EUGENE STOLTZFUS FURNITURE DESIGN'S

*Architecture and Furniture Firm Embraces Natural Materials and Modern Design In Lisbon Collection, Now on Display at Saks Fifth Avenue*

**New York, NY:** "Great aesthetics and authentic materials," were the qualities Raylin Diaz, the Visual

Windows Director at Saks Fifth Avenue, found in the Lisbon Collection from Eugene Stoltzfus Furniture Design. The collection features tables, pedestals, and seating, all crafted with the same modern aesthetic uniting the elements of solid Portuguese cork and solid steel frames. Eugene Stoltzfus, founder of

ESFD, finds his company's relationship with Saks Fifth Avenue fitting, saying, "The timeless appeal of our Lisbon Collection is the perfect complement to Saks' cutting edge fashion." As of June 28th, the Lisbon Collection is on display for three weeks at Saks Fifth Avenue in the windows on the corner of 49th St and 5th Ave.

## KNOW HOW TO FIND EMERGENCY EXITS

We pass them every day, but how many of us really see them?

Doors with an "Exit" sign may not be interesting, but they are vital to your well-being.

**Emergency exits are essential to escape from:**

- Fires, either inside the building or in the surrounding area.
  - Explosions caused by gas leaks or chemical reactions.
  - Power outages caused by natural disasters or internal electrical problems.
  - Building collapse or major structural failure.
  - Release of toxic substances or spills of flammable liquids.
- Natural disasters such as floods, earthquakes and tornados.

Several of these events may happen in a sequence as one may trigger another. Bearing this in mind, Make it a personal safety habit to know the location of at least two emergency exits at all times. This applies off the job as well as on the job. No matter where you are in a building, even if you are just passing through, look for two emergency exits.

**What can you do to ensure the**

**emergency exits in your work area are safe?**

Keep emergency exits doors clear. Do not block emergency exits doors at any time.

- Keep the pathways and aisles leading to emergency exits clear.
- If you notice an Emergency Exit sign is not functioning properly (not lit) report it to your supervisor.

Knowing your exit routes helps eliminate panic.

**Knowing what to do in case of an emergency can help prevent panic and it can save lives. Learn your part in emergency procedures. Stay Safe out there....**
